Pacific Creosoting Plant (Wyckoff Facility)
5350 Creosote Place NE
Bainbridge Island
Kitsap County
Washington

John Stamets, photographer

August 1995

- | <u>HAER No.</u> | <u>Description</u> |
|---|---|
| WA-131- 1 | Creosote plant site (NW side) as viewed with a telephoto lens from Winslow ferry terminal. Eagle Harbor is in foreground. Buildings include Machine Shop on left, Boiler Building with stack, and Engine Room Building at center. Office is at far right next to tree. |
| WA-131- 2 | Creosote plant site (NE side) as viewed from passenger deck of Washington State Ferry as it approaches the Winslow landing. Remnants of Milwaukee Dock are visible on far left. Building at left is Office. Engine Room Building with sloped roof is at center behind tanks. To the right is Boiler Building with stack. Long building is Machine Shop. Dock on right is West Dock. |
| WA-131- 3 | Creosote plant site (SW side) as seen from near entrance from Creosote Place NE. View shows back of Engine Room Building on left, oil storage tanks, and small work shed on right. |
| WA-131- 4 | View looking north from Office shows remnants of Milwaukee Dock, which had been built specifically for loading railroads ties for the old Milwaukee Railroad. |
| WA-131- 5 | Cranes used for moving logs. One of these cranes had earlier been used in the building of the Panama Canal. |
| Note: The following HAER photocopy is an 8x10" high-contrast copy photograph made from a 1939 drawing in the collection of the regional office of the Environmental Protection Agency, Seattle, WA. | |
| WA-131- 6 | Scaled site drawing of Pacific Creosoting Company. 1"=50'. Dated March 1939. |
